

Mead Clark Lumber **Your Commercial Building Partner**

Since 1912, Mead Clark Lumber has been a vital resource for the rapidly growing communities of Northern California, supplying quality lumber, engineered wood, tools, hardware, and other building products and services, plus outstanding customer service, to construction professionals.

Years of experience and ongoing training allow our staff to offer expert consultation to support our products and services, providing added value second to none in the industry. Our size gives us the buying power, the sales force, and the fleet to serve the needs of the commercial building industry throughout Northern California at competitive prices.

We are committed to be your commercial building partner, making sure that all our products and services, from special order materials to stock EWP and FSC® products, and from professional EWP layouts to timely deliveries meet your exact needs.
