# TimberTech Deck Expo - October 11th 10-1pm

Come pay Mead Clark a visit on October 11th to talk with the experts on how to “harden your home” with TimberTech, while also taking advantage of the Last Decking and Fencing Sale of the season.

## REAL WOOD BEAUTY WITH TOP-RATED FIRE RESISTANCE

TimberTech Advanced PVC offers both beauty and fire resistance, giving you peace of mind and a deck you can enjoy for years to come.

When it comes to protecting your home from fire, every detail counts. While those living near fire zones understand the importance of minimizing flame spread risk, fire safety is worth considering no matter where you live. Accidents, like grill fires or stray sparks from a fire pit, can happen anywhere and lead to disaster.

TimberTech Advanced PVC Decking provides an added layer of peace of mind. Our Vintage and Landmark Collections are Ignition Resistant, WUI Compliant, and boast a Class A Flame Spread Rating, meaning they burn at a slower rate and are less likely to contribute to aggressive flame spread. That’s protection traditional wood and composite decking can’t offer.
